CEED'S COLORING BOOK

COLORING PAGES + ACTIVITIES!

Designed and illustrated by: Eh Soe Dwe
CEED develops popular education materials that positions communities to share stories and experiences that address injustice and advance advocacy and liberation. CEED’s curriculum is organized by series. Our existing curriculum includes the Pollution Series, Energy Series, Climate Series, Nature Series, and Environmental Intersectionality Series. Each contains various educational materials related to the series’ theme; materials may include facilitation guides, outlining an entire lesson plan for a workshop, or supplemental educational resources, such as an infographic, a zine, or a coloring book.

CEED's Coloring Book is a part of our Climate Series, and aims to convey climate resilience through imagery inspired by real-life practices by local communities. As you partake in the activities of this coloring book, please be mindful of your environment and take the time to acknowledge the land you stand on.
I SPY...

[go outside and look for:]

- Dandelion
- Squirrel
- Bumble bee
- Mushroom
- Worm
- Puddle
GO FORAGING!
Make your way through the maze
What goes in what?

answer key on page 25
“Knowing that you love the earth changes you, activates you to defend and protect and celebrate. But when you feel that the earth loves you in return, that feeling transforms the relationship from a one-way street into a sacred bond.”

- Robin Wall Kimmerer
Page 9: FRUITS

1. Strawberries  6. Grapes
2. Pomegranate  7. Orange
3. Apple        8. Pear
4. Lemon        9. Banana
