Xiye Bastida

A Mexican climate activist, and a member of the Indigenous Otomi-Toltec nation. Xiye currently attends the University of Pennsylvania where she is studying environmental studies and public policy. She organizes events for Fridays for Future - New York City, and the Re-Earth Initiative and advocates for immigrant and indigenous visibility in climate conversations.

Eunbin Kang

Eunbin lives in Seoul, South Korea and studied political science and diplomacy at university. She is passionate about environmental topics surrounding waste management. In 2020, she started the Youth Climate Emergency Action movement, which is currently undergoing trials against the Korean company: Doosan Heavy Industries & Construction. Eunbin emphasizes the importance of keeping the spirit of hope in the face of the climate crisis.

Hindou Oumarou Ibrahim

Her home is Mbororo, a pastoralist community in Chad, where she founded the Association for Indigenous Women and Peoples of Chad (AFPAT). Hindou's work ensures that Indigenous traditional ecological knowledge is included in international climate discussions. At the 21st United Nations Conference Framework Convention on Climate Change, she and other Indigenous leaders successfully lobbied that their rights be recognized.

Leah Namugerwa

Leah celebrated her 15th birthday by planting 200 trees to call attention to how environmental issues have impacted her home in Uganda. The northern and southern regions are experiencing extreme hunger due to constant drought and deadly landslides caused by climate change. Since 2019, Leah has participated in weekly strikes at her school with Fridays for Future - Uganda, in efforts to bring attention to and act against climate change and growing plastic pollution.

Destiny Hodges

Her home is Birmingham, Alabama, and she is currently a student at Howard University. Destiny works to create safe and intentional spaces for Black people in the fight for climate justice and is the founder, co-executive director, and communications director for Generation Green, a black youth and women led organization that builds community for youth leadership in the environmental justice movement.

Eunbin Kang

With an increase in extreme weather events and climate disasters, women are disproportionately at risk of violence and displacement. As caregivers and leaders, women play a unique and important role in adapting to climate change and leading the fight for climate justice. Meet these women of color, who have contributed to the climate movement locally and globally.

Why does this matter?

Meet these women of color, who have contributed to the climate movement locally and globally.
Women Shaping Climate Action

An informational dive into how women are a key aspect in creating climate solutions!

How can you get involved?

- Support and amplify women’s voices! Whether it be sharing their stories, reposting on social media, or promoting their platform messages in small and large group discussions.
- Fund their work! Recognize the need for funding to move some of their messages and work forward and consider donating to them for their time, labor, and care.
- Celebrate their wins! Stay engaged with their work and recognize their victories.

What is CEED?

CEED develops tools and information on climate, environment and energy to build the capacity of community members to effectively participate in public decision making.

Our popular education program is rooted in connecting class, race and social transformation to issues of climate, energy and the environment.

MEET THE CREATORS

Jalayna Smith-Moore

Growing up in Richfield, Minnesota, she decided to attend the College of Saint Benedict with a major in Environmental Studies and a minor in Biology. She is the treasurer of the Climate Justice Club on campus, and works with other students towards fostering a more sustainable environment.

Eden Deal

Referring to the Bahamas as her coral island home, she is a senior at the College of Saint Benedict majoring in Environmental Studies and minoring in Psychology. As an inclusion assistant on campus, she cooperatively organizes events centered around diversity, equity, and inclusion in the outdoors.
